Note:
 All connections are via StudioHub+ shielded RJ-45 patch cords and adapters. Blue wires are signal input. Red wires are signal outputs. All cables support analog or digital connectivity.

Note:
 All connections are via StudioHub+ shielded RJ-45 patch cords and adapters. Blue wires are signal input. Red wires are signal outputs. All cables support analog or digital connectivity.

Note:
 Purple lines are 25-pair CAT-5 connectivity for analog/digital/ethernet connectivity. Termination is on StudioHub+ RJ-45 connectors.
 Orange lines are 25-pair CAT-3 connectivity for control wiring. Termination is on 66B style punch blocks.
 Cables are shipped pre-connectorized with RJ-21 (Centronics) male connectors. 50 ft. cable lengths are shown, specify actual length on order.
